

Downspout Connectors

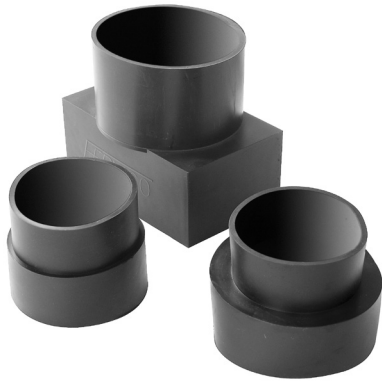

Downspout connectors stretch easily over most common downspouts to seal out debris. Ideal for aluminum, steel or plastic downspouts, as well as cast iron, spiral, corrugated or plastic drain pipe. Fernco supplies downspout connectors for 3"-4", universal downspout connectors for 6" pipe and custom large-diameter downspout connectors for 14" and larger pipe.

- Commercial or residential applications
- Fast and easy installation
- Made of flexible PVC
- Durable
- Seals out debris
- Compatible with common downspout and pipe sizes
